Profile Summary

Front-end Developer with 1.5+ years of professional experience building scalable, responsive, and user-friendly web applications. Proficient in React.js, JavaScript, REST APIs, and modern front-end tools, with a proven track record of delivering seamless UI/UX and collaborating effectively with cross-functional teams. Passionate about crafting clean, maintainable code and contributing to innovative products that solve real-world problems.

Core Skills

- Frontend Development: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind
- Programming Languages: JavaScript (ES6+), TypeScript, Python
- Web Services & APIs: REST APIs, Django Rest Framework integration
- Collaboration Tools: Git/GitHub, Jira, Agile/Scrum
- Soft Skills: Communication, Problem-solving, Teamwork, Adaptability

Professional Experience

Full Stack Developer | Aryan Tech World

Feb 2024 – Present | Remote

- Built responsive React.js applications integrated with REST APIs for multiple client projects.
- Optimized frontend performance, improving load time by 30% through code splitting and lazy loading.
- Collaborated with backend developers to design and implement seamless API-driven features.
- Ensured cross-browser compatibility and mobile responsiveness across all major devices.
- Worked in Agile teams, contributing to sprint planning, code reviews, and deployments.

Frontend & Backend Developer | AKS Global Tech

Jun 2023 – Feb 2024 | Bhubaneswar

- Developed scalable web applications using React (frontend) and Django (backend).
- Designed RESTful APIs to manage e-commerce carts, authentication, and dynamic dashboards.
- Delivered 6+ freelance projects including ERP solutions, B2B websites, and e-commerce platforms.
- Provided consulting on web architecture, API integration, and deployment with Nginx.

Education

Bachelor of Computer Applications (BCA)

Graduated 2023

Projects

- Quick Grocery Store (10-Minute Delivery App): React + Django REST API, cart & checkout functionality.
- ERP Management System: Bootstrap UI with Django backend for sales, inventory & communication links.
- Movie App (React Native): Integrated external API to display trending/upcoming movies.

Certifications

- Python Full Stack Development (Django & React)
- REST API Development with Django REST Framework
